Box No. V Reasoned statement under Rule 43bis.I(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	I-73	YES
	Claims		NO
Inventive step (IS)	Claims	I-73	YES
	Claims		NO
Industrial applicability (IA)	Claims	I-73	YES
	Claims		NO

2. Citations and explanations :

Reference is made to the following document:

D1=KR 2004-1596 A (07 JANUARY 2004)

D2=KR 2004-9358 A (31 JANUARY 2003)

1. Novelty and Inventive step

Claims 1-73 meet the criteria set out in PCT Article 33(2) and 33(3).

The subject matter of present claims 1-73 discloses a read-only optical information storage medium comprising a plurality of areas in which data is recorded in the form of pits, wherein the pits in at least one of the plurality of areas are of a different pit pattern than pits formed in others of the plurality of areas.

D1 discloses a reproduction-only high density optical disk and method for reproducing thereon. The reproduction-only high density optical disk is comprising high frequency wobbled data zones and user data areas, and transition zones between high frequency wobbled data zone and user data zone

D2 discloses an optical information recording medium and method for recording thereon. The information on the user data is written in at least one of the lead-in area or lead out area in the recording medium.

Therefore the prior arts D1, or D2 does not teach or fairly suggest the reproduction-only optical information storage medium wherein the pits in at least one of the plurality of areas are of a different pit pattern than pits formed in others of the plurality of areas.

The novelty and inventive step can be acknowledged for the subject matter of present claims 1-73.

2. Industrial application

Claims 1-73 meet the criteria set out in PCT Article 33(4).
